

Yorpo, Pedro L. Jr.

FullStack Developer

About Me

As a dedicated and versatile Full Stack Developer, I bring a strong background in both front-end and back-end development, ensuring seamless integration and high-quality user experiences. With a passion for crafting efficient, scalable, and maintainable code, I have successfully delivered various projects using modern web technologies. My expertise spans Angular, React for front-end development, alongside Laravel backend framework for back-end solutions. I thrive in dynamic environments, collaborating closely with cross-functional teams to solve complex problems and drive innovation.
